REMOVE RACIAL BAN, JAPS DEMAND ON WORLD LEAGUE

TOKIO, Feb. 21.—Count Okuma, referring in the House of Peers to the League of Nations today, said:
"The United States and Great Britain are conjointly the leading nations of the Saxon civilization.
For consummating the league nothing more important is to be done than the removal of racial discrimination. Japan is now among the five great powers and entitled to demand equality in all respects.
Which will depend upon Japan's delegates at the Peace Conference to give practical efficiency to this most important problem not only for Japan but for the practicability of the League of Nations."

FEDERAL RAIL CONTROL
TO END JUNE 30, REPORT.
President is Expected to Order Return
at Once Following the Failure
of Congress to Act.

WASHINGTON, Feb. 21.—Congress will adjourn without making any provision for the future of the railroads. No action will be taken on the federal control for five years, as recommended by Director Hines and his successor, Walker D. Hines. President Wilson, whose recommendation expected to be made to him by Director Hines, will issue a proclamation, it is said, before he returns to the White House, returning the roads to their owners for private operation. The managers and general managers appointed by the administration here, will turn the properties over immediately to the owners for operation, under the seven regional directors. This will be the first time since the federal control was established in 1918 that the federal control, before corporate officers, were removed from the management of the railroads and Federal managers named to succeed them.

President is Expected to Order Return
at Once Following the Failure
of Congress to Act.

WASHINGTON, Feb. 21.—The House of Representatives today passed a bill to end the federal control of the railroads on June 30, 1920. The bill, which was introduced by Representative Hines, of California, and passed by a vote of 219 to 191, provides that the federal control of the railroads shall terminate on June 30, 1920, and that the railroads shall be returned to private ownership. The bill also provides that the federal control shall be maintained until June 30, 1920, and that the railroads shall be returned to private ownership on that date.

Raze Helgoland to Water's Level Is Latest Allied Plan

LONDON, Feb. 21.—The proposal to sink the German warships now in the Skagge Flow, it is now generally stated in the English newspapers, is practically certain to be accepted by the Peace Conference. It also is proposed, it is said, to raze the island of Helgoland to the water level. According to the Mail, both proposals, which originated in the British Admiralty, will be discussed in Paris in the next few days.

The destruction of the ships is advocated on the ground that their division among the victors would cause heartburnings. The vessels, numbering five battle cruisers, eleven battleships, eight cruisers and fifty destroyers, probably will be escorted by Allied fleets to a deep part of the Atlantic westward of the Skagge Flow and there sunk. The question of dealing with the surrendered submarines will be considered separately.

The razing of Helgoland would be a stupendous undertaking, as the island is about one-fifth of a mile square and at its highest point 190 feet high, while the coast is fortified with concrete and steel. An enormous quantity of explosives would be required, but, the newspaper adds, "it would be the best way of consuming the German reserves of high explosives."

After destroying the fortifications of Kiel, assuming the British contention for this action is accepted, the Mail says, could be handed over to a private company on the same lines as the Suez.

ASK UNIONS TO REVOLT Printed Slips Urge Bolshevik Aid is Revolution. Senate Witness.

WASHINGTON, Feb. 21.—John Reed, a writer, who described himself as a "revolutionary Socialist," told the Senate committee investigating lawless agitation today, that he believed the Bolshevik regime in Russia was doing "great work," and that he was a firm advocate of a revolution in the United States. He followed his wife, Louise Bryant, on the stand, and like her, denied stories of atrocities related by previous witnesses.

Reed, who spent some time in Russia, freely admitted that he was employed in the international revolutionary propaganda bureau of the Bolshevik Ministry of Foreign Affairs in Petrograd, and told the committee that he had been in charge of an "information bureau" in New York. He said he had distributed the matter with some persons there, and added:

"There are some wealthy women in New York who have nothing else to do with their money." The witness said he did not speak at the meeting in a Washington theater, which was largely responsible for the present investigation, because he was "considered too disreputable" to be invited to give a lecture. Hun Republic is Near Rocks, London Learns

LONDON, Feb. 22.—"The young German republic will in a very short time be faced by a severe upheaval, if not a breakdown," said Philipp Scheidemann, German Chancellor, addressing the National Assembly at Weimar yesterday, according to a German wireless dispatch received here.

"The state and the nation are menaced as to food supplies and the conduct of industries, not only by our enemies but our compatriots, who are now threatening our most important industries in the Rhine-land and Westphalian regions," he continued. "The ground upon which we are standing shakes, and perhaps will sink if we are unsuccessful in ending this madness and crime in the Ruhr region."

BAVARIAN MINISTERS SHOT Fusillade of Bullets is Poured into Diet; Three Killed, Two Wounded.

MUNICH, Feb. 21.—Herr Auer, Bavarian Minister of the Interior, has been shot.

The shooting took place during a session of the Landtag, while Auer was alluding to the assassination of Kurt Eisner, the Bavarian Premier. Auer fell wounded in the left side and Deputy Oest was killed and two other officials were seriously wounded.

The shots were fired from the public gallery and caused a panic among the deputies.

The Diet building now is being guarded by the military.

GENEVA, Feb. 21.—Kurt Eisner, Premier for Bavaria, was shot dead at Munich this morning at 10 o'clock.

Kurt Eisner, who seized the reins of government in Bavaria after the deposition of the royal family early in November, was a Socialist of the more radical type and recent reports from Munich have been that he was heading a Spartacist movement against the moderate and conservative factions in Bavaria.

The assassination has created a great sensation at Munich and grave troubles are feared, as the Premier was the idol of the population.

BULLETINS

(BY ATLANTIC CABLE AND A. P.)

LONDON, Feb. 21.—Herbert Gibbs, a well-known banker, in an address here today declared that, having made a special study of the subject, he was able to say that the savings of Germany were very great. Germany could easily pay £600,000,000 yearly, the burden of which he asserted, would fall not on the wage earners, but on the people who had made the war. He believed an Allied commission should sit at Berlin to receive the money at marks at the gold rate of exchange.

LONDON, Feb. 21.—Reuters' Limited says it learns that the commission inquiring into German submarine successes has sufficient evidence to convict some twenty German submarine commanders, nearly all of whom are in Germany, of murder. Several commanders in particular have had records, according to Reuters, of no mercy and no quarter. It is believed that the commission may be. He is believed to be a very important figure in the submarine war.

LONDON, Feb. 21.—The Allied forces, in successful operations, carried out with courage and dash, have advanced to Soroko, on the Murman railway, according to an undated report received here tonight. The Bolsheviks lost fifty men killed and eighty wounded, and the Allies captured much material.

PARIS, Feb. 21.—It is official announcement that the question of the creation of a neutral zone between the Hungarians and Rumanians in Transylvania has been referred to the Supreme War Council at Versailles.

LAWRENCE (Mass.) Feb. 21.—A street parade of about 3000 textile strikers and sympathizers was stopped by the police tonight after a conflict in which one officer was injured. Nine men were arrested.

WASHINGTON, Feb. 21.—Word was received here tonight of the death of Representative William P. Borah of Missouri. Death occurred at Army Field Hospital No. 201, France, of pneumonia.

NEW YORK, Feb. 21.—Strikes on July 1, to make effective the slogan "No beer, no work," have been voted by the New York ironworkers, shipbuilders, longshoremen, hatmakers and stationary fitters, pavers and ramblers unions. It was announced at a meeting of the Central Federated Union here tonight.

The Premier then proceeded to the hotel where he called an open letter," said Mr. Taff, "whether I would consent to the signing of a document in which the Monroe Doctrine is not recognized."

"I will answer him by saying that I would like to have the Monroe Doctrine acknowledged by such a document as he has mentioned. If it contains one of its principles is contained in the covenant for such a league, I shall not object to its being signed, in which it is put."

"Article X of the covenant drafted by Paris states that the Monroe Doctrine to the entire world and gives the backing of the entire world to the United States against the Monroe Doctrine, and I am in entire possession of that concept."

QUESTIONS BORAH.

"What I would like to ask Senator Borah is this: If he insists on respecting the sovereignty of the Monroe Doctrine in the League of Nations, and if he recognizes it given it in the name of the President, will he vote for a treaty?"

The "only possible danger" a celebrated French expert was consulted by the Senate, was that the bill, if passed, would be the first time, in the appearance of a monetary convention, caused confusion. If it were not so, the Senate's reputation could be changed to an assurance of failure. Every day the bill was without effect, every day the Senate was "choking" the Premier's phraseology.

Both Men are Marked When the Bout Ends.

(BY A. P. NIGHT WIRE.)

SAN FRANCISCO, Feb. 21.—Benny Leonard of New York, light-weight champion of the world, and Willie Ritchie of San Francisco, former holder of the title, fought a slashing, four-round, no-fence bout here tonight. A press all-around verdict gave Ritchie a shade the better of the fight. Both men fought every minute from the opening gong.

Both men were marked. Ritchie, who was almost choked when the bout ended. The men entered the ring at catchweights and the lightweight title was not involved.

The first round opened with both men springing cautiously. Ritchie, with both right and left straight and crossed. The fight was fought vigorously in the second, but landing frequently. The succeeding rounds were full of action, both men fighting on their toes after the clinches. Ritchie made frequent use of his right arm, and in the fourth round he was estimated more than 1200 persons witnessed the fight.

DEL MONTE, Feb. 21.—Del Monte and its surroundings from all sections of the Coast and the East were expected to gather here tomorrow for the observance of Washington's birthday at special exercises in the Monte Forest. Edward, the 11-year-old Tacoma boy, will play a cherry.

LAWN BOWLERS COMPETE TODAY.

The annual American and Canadian lawn bowling tournament will be staged this afternoon at 2 o'clock, at Exposition Park. More than fifty-six men will participate today, and the contest will be evenly matched, and some optional bowling is contemplated.

NEW GRIFFITH GOLF COURSE.

At a meeting of the Park Commission, held yesterday afternoon, the plan for lengthening, building new tees, greens and hazards, and the work ordered accepted at once.

Superintendent of Parks Frank Shaver, declared that he would have his men at work on Monday and that the work would be pushed to completion. A. C. Chas. manager of the field house and golf links, will have general supervision, while Peter O. will be in direct charge of the men.

The new plans give a playing length of 6121 yards with two even halves, one on each side of the field house. The holes will be 3585 yards, the first and tenth tees, ninth and eighteenth greens, directly at the field house. There will be eight classes of various holes from the 10-yard mounds to the 100-yard.

The reconstruction will be carried on without the least interference in the daily play. When the work is completed, the golf links will be in the best municipal golf links in the world.

GERMAN GOVERNMENT
STILL BUREAUCRATIC

RETURNED VISITOR
SAME OLD REGIME IN
KAIERS DAY BEER.

THE ATLANTIC CABLE AND A. J. FALKER, Jan. 21.—The German government is the same old regime of the Kaiser, says a German newspaper, and the same attitude toward the United States capital, and does not intend to use force which caused the recent visit of Dr. Aloisio G. Trujillo, a specialist, who has just returned from Germany, where he conducted extensive investigations in behalf of the German people for relief caused by the "Coup of Berlin" and the "Coup of America." The German government, and the bureaucracy of the old regime, are the same old regime, he added. The German government is becoming Russianized. The German people are not satisfied with the service, and many are inclined to desert the old army of the Kaiser. The German army has been demoralized and demoralized. Dr. Taylor says, but the investigation will be possible for a while. Many Germans are returning to discover their bottling and their merchant fleet, and do not want to be taken away by the United States. Taylor's opinion, and the German people's approval is probable with the signing of the treaty of peace. The German government is not constitutional by Dr. Taylor, and it was possibly created by the German government to protect the German people. The German people are paid of money.

To Feed Thousands at Air Circus.

Army Field Kitchen at Arcadia Balloon School.

These kitchens are to serve army fads to the spectators at the air circus there today. Mrs. Walter V. Fomeroy is serving doughboys here.

ALL SET FOR AIR CIRCUS.

Fifty thousand spectators are expected at Arcadia today. The Balloon School circus is the first of its kind since after the armistice was signed.

Every "Baby Elephant" and every airplane will be in the air today. The public will be fed at noon from the camp kitchens. Bully beef and soup will be served.

Automobile roads are signed. The best route is by way of the Huntington boulevard, through Osonota Park and direct to the Arcadia Balloon Field.

The grounds will be open at 12 o'clock and the programme will be started at 2 o'clock.

There will be athletic events, a double parachute drop, a parachute drop from a flying airplane and a parade of "Baby Elephants."

Soldiers and sailors in uniform will be admitted free to the circus. Automobiles will be permitted on the grounds, but parking spaces will be provided around the entire field from the several vantage points. The roads will be roped off until noon, with the exception of the Downey road and Foothill boulevard.

In the parade of "Baby Elephant" balloons the big airships will be flown across the field in double formation, made to perform evolutions in the air, with the winches moving underneath and with the men in the baskets in constant communication with the telephones below. All of the work in the air will be directed by telephone.

Prominent citizens will take trips off in the "Baby Elephants." Mayor Woodruff, Watt Moreland, president of the Chamber of Commerce, H. B. Woodfill, president of the Merchants' and Manufacturers' Association and Champ S. Vance, second vice-president of the Los Angeles Gas and Electric Corporation have signified their desire to go aloft and they will be given places in the basket for the first ascension after the programme is started at 2 o'clock.

The grounds are to be opened today at 12 o'clock. The public will be permitted to inspect the apparatus. The paraphernalia will be spread out for those who wish to see what is being done at Arcadia. Hydrogen gas will be manufactured. There will also be a series of athletic stunts, which are most interesting and which promise to be exciting as the mass of the different companies have been training for some time and the sprints and dashes, the tug of war and the races will bring out many fast men.

"POTTER" IS "BELVIDERE."

Santa Barbara's Hotel Potter henceforth will be known as the Belvidere. Announcement of the change in name was made last evening at a banquet at which D. M. Linnard, new owner of the famous hotel, was formally introduced to Santa Barbara.

Nearly all the leading business and professional men of that city, together with a number of well-known men from Los Angeles and Pasadena, were in attendance. All the addresses were congratulatory in nature.

The speakers were Mayor Nielson Santa Barbara, F. H. Schauer, resident of the Chamber of Commerce of that city; H. G. Chase, representing the Rotary Club; A. J. Flinley, for the county, Mr. Linnard and John E. Mitchell, director promotion for the hotel syndicate.

The Santa Barbara speakers assured Mr. Linnard that every resident of Santa Barbara stands ready co-operate in every way possible make his hotel enterprise there successful, and he replied by saying

that it is his desire to co-operate with that city at every opportunity.

"The city's interests are the hotel's interest, and what helps the hotel helps the city," he said. "It will be our endeavor to make of Santa Barbara the most famous beach resort on the Pacific Coast. We intend to build a big summer business here, as well as to cater to the winter trade. With all her natural advantages, there is no reason why Santa Barbara should not be as popular, both as a winter and summer resort, as any place in America."

Mr. Linnard reviewed plans for contemplated improvements, which include thirty-four bungalows on the hotel grounds, changes in the lobby and the construction of a swimming pool on the lawn. He said a special effort will be made to attract summer visitors from the interior counties.

Among those present from Los Angeles were J. W. Titcomb, vice-president of the Pacific Electric Railroad; former Senator F. P. Flint, Capt. John D. Fredericks, W. J. Doran and Carl McStay. E. T. Off and Allen Polack of San Francisco and S. W. Straus of New York and Chicago also were at the banquet.

CARSON MARRIES AGAIN.

and there to the magnificent display on the table.

"This thing is over yet," Mr. Carson said in parting. While he attempted to go into details he intimated that he will start some more marriages, including one that was the subject of the Arizona marriage. "But how about the Arizona marriage?" he was asked.

"That I can't discuss now, but at the proper time I will answer fully," smiled.

NO POISON FOUND.

The two chemists, Prof. Arthur Maclean and Edwin H. Miller, represented Mr. Linnard that every investigation, were still at work yesterday, though practically through with the most important part of their task. Several groups of witnesses, including one that was the most likely to have been found in view of the symptoms reported following death, have been eliminated. The tests made, it was learned last night. The final report will be ready Monday, and will contain, it is established, the statements of the surgeons that post-mortem evidence uncovered by the autopsy pointed to the conclusion that death is from natural causes. That death was the action of the authorities will be disclosed, but Attorney Ford, representing the relatives, yesterday again announced that as soon as the examination is over, the civil suit to break the will of Mrs. Hughes Carson will be filed.

BIG JIM CONSOLIDATED

The crosscut on the 200-foot level of the Big Jim Consolidated property disclosed one of the same character as United Eastern, although values were below milling grade. With an additional depth of 200 feet—160 feet below present workings—we look for good values.

As development work approaches the 400 level, we expect steadily advancing prices in the stock.

NELLIE GOLD MINING

Work starts on this property the coming week. Drifting on the 500-foot level of the Nellie should disclose important results.

FINANCING THE WORLD. NEW YORK STOCK MARKET.

BY CHAPMAN HALL.
The following communication is a sample of many which find their way to this department and which indicate a growing tendency on the part of the average reader to inform himself on the great problems which are now confronting the business world and to endeavor to grope a way through the intricate maze of composite financial conditions which the war has left for our solving.

"I daily read The Times on financial matters and as a layman endeavor to get some idea of the financial position of the world in these abnormal times, but I cannot see how the war-burdened countries of Europe are going to pay their interest on the loans borrowed from us unless the United States takes their manufactures. France, for instance, formerly she sent us her wines and spirits. Under prohibition trade in these commodities will entirely cease. Of course, France pays in gold, and if she sends her wine and other products to Argentina, for example, her ships would return home laden with Argentine meat or grain. She would not bring Argentine gold to the United States, but she would bring here. How can France and the other countries possibly pay the interest on loans borrowed from the United States?"

Our correspondent is well within the purview of legitimate curiosity, and the reactions he proposes are receiving the most careful thought of men of affairs throughout the civilized world. The problem embodied in the greatest scientific of finance have even been called upon to solve and in its proper solution lies the future commercial happiness if not, indeed, the peace of the world.

Following the example selected by the inquirer, it may be admitted that if France sends the products of her vineyards and the handwork of her artisans to Argentina, the will not return with empty holds, and it is undoubtedly true that the meat and grains and whatever else Argentina has to offer in return will find their way into French distribution, and to just that extent will American goods be without foreign market.

On the other hand this country will find a ready outlet for its surplus products, while the many manufactured products will be in demand for their intrinsic value. Is it not conceivable and would it not be the part of good business internationally applied, if instead of the old frame of barter and trade, a quasi exchange, bonds, mortgages or even the purchase of stocks and bonds, and the sale of goods, were used as a medium of exchange? Then, when a Bordeaux wine producing country, Argentina, for example, exports to the United States a portion of its product, the transaction, and a portion of the profit is automatically segregated to the use of America's credit. This followed out almost indefinitely would not our international business relations be practically the same footing as our domestic dealing, would enable the foreign country to finance his business, permit him to place his goods where the best market is to be obtained, and adjust his balance sheet to meet his needs in the most businesslike manner. This, of course, assumes the ability of the debtor to market his goods at home or in countries other than the United States, and whether the debt is incurred by an individual or a corporation, the profits applied to liquidate obligations here on this side, it may be in some such manner as this that the world's answer to the questions posed by the inquirer would be found, but the way followed by the path through an unbroken forest of perilous difficulties. The blinding of the water will prove a task worthy of the best thought on both sides of the water.

The copper situation, which, a few days ago, seemed fraught with peril, is gradually shaping itself and the metal is beginning to move at the new postwar prices around 15 cents per pound. The worst period of this readjustment is probably over. The United Verde and the United Verde Extension at Jerome, Ariz., will be inactive for several months, but that is solely due to the boneheaded policy of the men who chose to follow a handful of I.W.W. settlers and not work at a time when it was most convenient to the company to suspend than it would have been to fight a strike. The present price is probably about what copper will stay for some time, for it only represents a fair profit below which the producers could hardly be expected to operate. The more intelligent of the men realize that the price of copper has fallen to a peace market, and as soon as the huge stocks already above ground, estimated in this country at a billion pounds, are absorbed, the industry will go ahead upon a normal basis. Already there is a stimulated demand indicative of the condition which will follow a stable price level of every commodity.

Because Congress has failed, and side-stepped and talked and fumed and procrastinated business men now find themselves forced to abandon exact book-keeping and approximate and deduce their revenue payments. Returns must be filed and first payment made by March 15 on last year's business while the revenue bill responsible for these approximations and deductions is being used as a convenient football upon which to impinge the rhetorical and the statements. Eight hundred million dollars of treasury certificates are due and payable the amount is not expected that the revenue bill will become a law by the first of the year and plenty of time afforded the collector to get in the first payment of the amount by the 15th. Every taxpayer who can possibly do so is urged by the collector to pay the entire tax on or before the 15th. The installment method, he explains, by which one-quarter of the amount may be paid at that time, followed by quarterly payments in June, September and December, is intended for taxpayers whose financial condition is such that it would tend to disturb local financial conditions.

The California Bankers' Association has just paid a reward of \$400 for the arrest and conviction of the man who has been and robbed the Westlake branch of the Home Savings Bank last fall. The robbers, who secured more than \$1100, are now serving terms in the State Prison. The association maintains a department for the protection of its members from loss by crime. Its slogan is "no compromise with criminals."

Bank clearing continues to hold out remarkably well although not quite attaining last month's high of \$1,754,137.12 and for the week of \$1,754,137.12 as compared with about \$1,754,137.12 for the corresponding five days last year.

Washington's Birthday will be generally observed throughout the financial district today. All banks and exchanges will be closed.

\$3,000,000 Sperry Flour Company

First Mortgage 6% Fifteen-Year Sinking Fund Gold Bonds
Authorized \$3,000,000. To be presently issued \$3,000,000.
Dated February 1, 1919. Due February 1, 1934.

These Bonds will be secured by a closed first mortgage on all of the assets of the Company, including land, buildings, machinery and equipment.

Fixed Assets, as of December 31, 1918, were \$5,924,378 and net current assets, after giving effect to the new financing, \$5,754,812, a total of more than three and one-half times the authorized issue of these first mortgage bonds.

The Company's net profits available for the payment of bond interest, during the last six-year period, have averaged five times interest charges on these bonds, and in 1917 and 1918 were more than ten times interest charges.

The mortgage will provide, that, in addition to the fixed assets securing these bonds, the Company must maintain net current assets, amounting to not less than one and one-quarter times the total of these bonds outstanding.

A Sinking Fund of \$100,000; annually, will retire approximately one-half of these bonds prior to maturity.

The Company has been in successful operation since 1892. Development has been continuous, so that today it is the largest manufacturer of flour on the Pacific Coast.

The Company deals in a staple commodity, which is in constant demand. Its business is, therefore, more than ordinarily stable in character.

Application will be made to list these bonds on the San Francisco Stock and Bond Exchange.

We Offer These Bonds if, as and when issued, and received by us, at 98 and interest, to yield in excess of 6.20%.
